ACTDigi® LEP PRIMER

Water-Based Excellence Approved for Use with HP Indigo Printing

ACTDigi® LEP Primer is a state-of-the-art, water-based solution, developed in partnership with HP and now part of HP's expanded primer portfolio. Designed to elevate digital print quality, this innovative primer ensures outstanding performance for different kind of labels produced on a wide range of substrates – including coated and uncoated papers, synthetics, and metallized materials. Even the most demanding surfaces, such as velvety papers and premium wine labels, benefit from its exceptional adhesion and ink transfer properties.

Optimized for the HP Indigo 6K and 8K Digital Press series, ACTDigi® LEP Primer delivers superior print results in both in-line and near-line applications.

KEY BENEFITS

- Enhances ink transfer from the blanket to the substrate
- Demonstrates enhanced ink adhesion on previously difficult substrates
- Compatible with ACTEGA's range of OPV solutions (UV, LED, water-based, E-Beam, solvent-based)
- Enables high-impact visual effects like hot foil stamping
- Excellent water resistance for durable applications
- Extends the lifespan of press components
- Eliminates or minimizes foaming, yellowing, and ghost images
- Easy to handle and clean

ACTDigi® LEP Primer offers optimized primer consumption for economic efficiency. Its streamlined workflow design ensures ease of use and maintenance, making it a reliable choice for high-performance printing environments.

COMPLIANCE

Fully compliant with Swiss Ordinance and Nestlé standards, ACTDigi® LEP Primer is free from solvents, heavy metals, phthalates, and CMR substances, making it suitable for indirect food contact applications. Having received the Cradle-to-Cradle material health certification, it reflects ACTEGA's commitment to sustainable and safe production practices.

ACTDigi® LEP Primer is fully compliant with Swiss Ordinance and Nestlé standards.

The product has been awarded a Gold level Material Health Certificate by the Cradle to Cradle Products Innovation Institute, reflecting ACTEGA's commitment to sustainable and safe production practices.

ACTDigi® LEP Primer is free from solvents, heavy metals, phthalates, and CMR substances, making it suitable for indirect food contact applications.

Available in Europe in 2025 and globally through ACTEGA's distribution network in 2026.
